HOBART AND GRIGGS. Specches by Two Noted Jerseymen to

a Crowd at Long Branch. NEW YORK, Oct. 28 .- Vice presidential candidate Garret A. Hobart and Governor John Griggs were given a rousing reception at Long Branch, N. J., to-night. Special trains were run over the different roads, bringing people from all parts of the county. He asked Monmouth county as his birth country to vote for better times and honest money. Governor Griggs spoke at length. Addresses were also delivered by the county nominees, who were all precent.

SENSELESS FAKE.

Specimen of the Silly Canards That Are Being Circulated by Popocrats.

pecial to the Indianapolis Journal. OMAHA, Neb., Oct. 28 .- The World-Herald of this city, which has been posing as the personal organ of W. J. Bryan, because the free silver agitator was once employed as its editor, is trying to outrival the Indianapolis Sentinel in the matter of fakes. Its free coinage of lies factory is continually at work. Its latest canard is a ridiculous story to the effect that it has received a confidential letter from a "prominent gold bug" who asserts that he is able to prove that persons having claims against to prove that persons having claims against Uncle Sam can have them settled quickly signifying whether they intend to vote the Republican ticket. The sillness of this statement is so apparent that it looks as if the author of the fake was troubled with a case of "wheels in his head."

A MADAME'S STORY.

Toledo Excited Over an Alleged Grandchild of Emperor Maximillian.

TOLEDO, Oct. 28 .- In the Police Court to-day the prosecution of a mysterious Spanish woman produced a sensation of a very remarkable sort. It is believed that the woman, Pauline Fernandzia, is in reality a granddaughter of the late Emperor Maximillian, who was deposed and executed in Mexico. Singularly enough this woman is being tried on the charge of keeping an immoral house. This is her second appearance in Police Court. The first time she claimed that she had been robbed by her husband and that he later attempted to poison her. It was shown that she came of rich family, for she exhibited a casket filled with precious genms. When asked if she was a relative of the Emperor she evaded the question, but told a story of a hurried fight from Spain to Africa and from there to Brazil. She has two children in Cuba and three in Madrid. The advent of some Spanish gentlemen to Toledo caused her to fly to the Sandwich Islands, returning again a few years ago. She is twenty-three years old. She said she was born in Madrid and that her father was killed by political cutthroats. Her god-parents then took her to Africa. She has been married twice.

OCTOBER TORNADO

FUNNEL-SHAPED CLOUD SWEEPS THROUGH PART OF TEXAS,

Mangles People, Destroys or Damages Houses and Almost Everything in Its Path.

SHERMAN, Tex., Oct. 28.-This afternoon, at 5:40 o'clock, a well-defined tornado formed in Squirrel creek bottom, four miles west of the village of Farmington and about one hundred miles southwest of this city. Parties who saw it at its inception say that out of a seething, tumbling mass of inky clouds a funnel-shaped column descended until it touched the earth, and then it began to move northwestward, accompanied by the usual terrific crash and roar as it tore through the bottoms, uprooting large trees and demolishing everything in its path, which for the first mile or two was thirty or forty yards in width. The first house it is known to have struck was on the George Duke farm, one mile west of Howe and about five miles from the starting point. No one was hurt Moser, of Loogotee, alternate; Mrs. E. M. Houghton, of Richmond; Laura B. Leonard, of Arlington, alternate; Mrs. Bennie Bates, of Martinsville; Mrs. M. B. Leck, of Springfield, alternate; Mrs. W. R. Loos of Eaton, Mrs. D. E. Studebaker. it did has not been ascertained. Several parties have gone to that secton, but it will be several hours before definite information can be had. At the Farris place a hut occupied by a family named Hayes, was torn to pieces and every member of the family more or less injured. Hayes is

thought to be fatally hurt. The path of the storm lay at least a mile and a half east of the city, but the cloudburst which accompanied it was furious in the eastern suburbs of the city. The houses as far down as Cleveland avenue are mud bespattered, the same as was the case during the great storm of May 15. After tearing down a vacant house east of the Clem Fitch place, on the Bonham road, about a mile east of College Park suburb, the cloud rose in the air and went a distance of two miles, when it descended, but no further damage can be learned.

At 8 p. m. a call was received from the vicinity of the Farris place for assistance from the city, asking for searching parties with lanterns. A large number responded Great crowds are congregated all over the city anxiously awaiting their return. Phyclans have gone to the assistance of the family and a score or more have placed themselves in readiness to answer summons if it is found that any number of persons have been hurt, which at this hour seems improbable, on account of the

narrowness of the path and its frequent leaps into the air, Storm at New Orleans. NEW ORLEANS, Oct. 28 .- A severe rain, wind and thunderstorm which passed over the city to-day caused one death and did other damage. The lightning, which was very severe, struck five houses. Albert Trahina, an occupant of one of them, was struck and instantly killed. A large num-ber of trees were blown down and houses were unroofed. The greater portion of the

fruit sheds of the Queen & Crescent road were destroyed, as well as several electric lights and nearly all the wires were tangled so as to interrupt the fire alarm, telegraph and stop most of the electric cars.

AFTER DR. ROOKER'S SCALP Enemies of Bishop Keane Want the Delegate's Secretary Retired.

WASHINGTON, Oct. 28 .- The opinion is freely expressed by ecclesiastics of the Catholic Church in Washington that the troubles within the church have not ended with the Bishop Keane incident and that they will soon be renewed at Rome by the parties to the present controversy. It is ter, fully expected by the friends of Dr. Rooker. the secretary of the pupal delegate, that the forces to-day which brought about Bishop Keane's retirement from the Catholic University will endeavor to secure the retirement of Dr. Booker, who is a friend of Bishop Keane and of Archbishop Ireland. This expectation has given rise to current reports that Dr. Rooker would be succeeded by a new secretary, but so far as known there is no further basis for the reports at the present time. It is supposed that matters may be pushed to a conclusion one way or the other after Cardinal Satolli's arrival at Rome. The Cardinal is due at Genoa to-day. He will not go direct to Rome, but will stop at Milan and Perugia. The expectation is that the names of Dr. Conaty and others proposed for the rectorship of the university will not be considered until the sacred congregation, now in recess, reconvenes on the second Monday November and that the final decision will be made known early in December. Mgr. Martinelli is confining his attention wholly to the work of the delegation, which is largely of a routine character, and has carefully refrained from any participation in the differences within the church.

This was done in the face of adverse circumstances, being late to the November Ladies' Home Journal in the afternoon when a strong east wind was blowing full down the stretch. While required for the operatic and the failing to excel his record of 2:00%, Gentry stage, the impersonation of character, the succeeded in breaking his last attempt at tribute to Americans: The Americans record-breaking at Terre Haute Oct. 20, when he went in 2:04½. At the half the time was one minute, and at a pace that never seemed to flag as he passed the three-quarters in 1:32, and came down the stretch amid the cheers of the crowd and in a strong wind, crossing under the wire in one of the greatest attempts of his life. Both the horse and his driver were immediately surrounded by an admiring throng, while the judges pre-sented Andrews with a gold watch. It was the general impression that had the race een run earlier in the afternoon, before the air became chill, and while the wind was light, he would have equaled or probably beaten his world's record. AMERICANS AS MUSICIANS. Madame Emma Calve contributes a pa in which she specially addresses of vocal music. She tells of the training ing race. They are possessed naturally of the most exquisite voices, which, unrivaled; they have indomitable energy, perseverance and pluck; they stop at nothing, are deterred by no trouble and pre-vented by no obstacle. Poverty, weariness, exertion, hard work-none of these living specters which affright and terrify the avrage art worker has terrors for them. To these gifts of voice, energy, pluck and persever-ance they frequently add a beauty of face nd grace and form and movement which the public recognizes as most important factors in the success of the singer's career. And nobody tears his fences down, And nobody tramps his grass. When first it gently grew.

And not a bee was e'er disturbed.

The livelong summer through;

No palings of the fence are gone, But all are there en masse, For nobody calls on Bill Bryan,

And nobody tramps his grass. When he gets home, if e'er he does, He'll recognize each blade, And each will say, "How are you, Bill? We're still here in the shade; We've had the laziest of times, No people o'er us pass; Don't send McKinley crowds this way, They're awful hard on grass.

There's another yard in the Buckeye State Where never a blade is seen,
The fence is gone, the flowers pulled,
By eager hands, I ween;
And every blade and every flower Said, when too late, "Alas, We wish we were in Bryan's yard, Where nobody tramps the grass."
